The Candlestick Trading Bible was invented by the Japanese rice trader Munehisa Homma. He is considered to be the most successful trader in history. He was known as the god of markets in his day. His discovery made him more than \$10 billion in today's dollars trading the Japanese rice market. trading accounts and lost thousands of dollars. I was on the path to giving up trading before I realized that everything that I was working so hard for, was right there in front of me the whole time. Luckily, this will not be the case with you, because what I am going to share with you today will save you thousands of dollars and year[...]
